PLEASE REVIEW INSTRUCTIONS CAREFULLY TO ENSURE PROPER COMPLETION OF THIS FORM.

At their discretion, AUM colleges can permit undergraduate students to pursue multiple majors within the same degree program. In general, students are not permitted to pursue more than two majors within the same degree.

To earn a double major, a student must complete all college and university requirements for the primary degree program, and all the major courses in the secondary program, including other requirements such as GPA minimums and prerequisites. College/university cores or other supporting coursework associated with the secondary program are not required unless they serve as course prerequisites for second major courses.

At least 20 hours in the second major must be unique and not courses that have been used as major, supporting, or core courses in the primary degree program. If at least 20 hours of unique coursework does not exists between the primary and secondary programs, a double major is not possible.

A student completing requirements for a double major will receive one degree with primary and secondary majors. The transcript will list a single degree with multiple majors. One diploma will be issued at the time of graduation.
