

Coursework for a certificate in GIS

The certificate in GIS is designed to satisfy the educational component for certification by the GIS Certification Institute (GISCI), a nationally and internationally recognized certification organization. Successful completion of five GIS courses will prepare students to employ computer-assisted spatial analyses in various academic professions as well as provide the tools necessary for practical applications in government or the private sector.

Students should check the prerequisite requirements for each course they plan to take.

Some courses require prerequisite courses.

Students must have a GPA of 2.00 or greater in the certificate.

Contact Person: Dr. Terry Winemiller, Department of Biology and Environmental Science

Course	Grade
GEOG 3950 Introduction to GIS with Lab	
GEOG 3940 Cartography with Lab	
GEOG 4950 Advanced GIS with Lab	
GEOG 4960 Remote Sensing and GPS Applications in GIS with Lab	
GEOG 4990 Applied Research in GIS with Lab	

- Prerequisite courses completed?
- Course work completed from list?
- Minor GPA is 2.00 or better?
